**C**hefs are among the world's most generous professionals. **Autism Citizen** calls upon members of the culinary community to help us in our mission to aid and support the autistic community. Our goal is to help integrate autistic teens and adults into society while providing education to build acceptance.

In the first six months that *Chefs4Autism* existed, together with **Autism Citizen**, we created over 320 jobs for those on the spectrum in the foodservice industry.

Together, we can do much more. We ask all professional chefs to donate something unique that may be auctioned off to benefit **Autism Citizen's** critical mission.

The choice is yours. We're counting on you.

## WHAT CAN YOU DO TO HELP?

You're invited to participate in our First Annual Chef's Gala.

Donating your experience, talent, and creativity can make a difference. We could auction a dinner at your restaurant, for example, or you could cook at someone's home for a small group, or teach a cooking class at your restaurant.

Experiential events can raise money for the charity, while also building your own brand. You make the choice most comfortable to you. Just let us know!

Participating chefs will be featured on Epicurus.com and at the event. Each will be an important member of the culinary team, co-chaired by **Mathew Woolf** (Rainbow Room) and **John Mariani** (Forbes Magazine).

**October 1, 2019, 6:30 to 10:30 p.m.**

**The Rainbow Room  
30 Rockefeller Center, New York, NY**
